POHUTUKAWA 55sqm: Introducing the Pohutukawa, designed as the next evolution of our much-loved Kahikatea 250. Many clients wanted a little more breathing room in the living area, so we've re-imagined the layout to deliver greater comfort and flow without adding unnecessary bulk. The result: a smart, spacious design that maximises lifestyle, efficiency, and style all in one compact footprint. With two generous double bedrooms, the Pohutukawa is ideal for couples, small families, offering flexible living for up to four people. As with all Footprint Homes, you can customise the look to suit your taste. Select from our range of claddings and add extra flair with one of our upgrade finishes. **Note:** The photo above is an artist's impression. Please refer to the specifications sheet for details of our standard inclusions.
